

Group Work

In Asynchronous Environment

Group 1

Step 1: Pick a Role

Everyone in the group needs to pick a role:

- Mission Control:
- Scribe:
- Questioner:
- Prover:
- Theorist:

Step 2: Brainstorm

Identify a major problem to focus on

IDEAS TO DISCUSS:

- Should there be synchronous interaction?
- How do students communicate?
- What tools can be used?
- Are there student roles? Do they rotate? How do you communicate that?
- How is conflict handled?
- What about grading? Individual grades? Group grades? Students who don't do their work?

Step 3: Prototype Solutions

- In your groups, select one or two identified major problems
- Discuss ways to overcome these
- Build a slide that presents your solutions
