Good afternoon,

I know many of you are anxious to begin. I have attached a list of 16 week courses and faculty assignments as well as instructions for becoming a peer reviewer. Please keep in mind that you also must be certified to teach online in order to participate in this project.

Things to remember:

- 1) Please make sure you have created an account at www.merlot.org
- 2) Please submit your redesigned course or courses to Ms. Nettles on or before July 31st.
- 3) Please submit a list of 10 OER websites per course to Dr. Robbie Melton and myself on or before July 31st.

Scholarship Information:

- 1) By successfully completing this pilot project you will be able to count this as scholarship and research.
- 2) We will be seeking additional funding for presenting at national conferences.

Payment information:

- 1) Once your course or courses have been cleared by Ms. Nettles and you have submitted your 10 OER websites, I will process \$1,000.00 per course.
- 2) You will receive the remaining \$1,000.00 after you have piloted the course this fall and have submitted all grant required surveys and data reports.

I think I have covered everything, if not please let me know. This email contains a vote option, by selecting yes, you agree to the terms of this pilot project ☺

Take care, Arletha
