The ongoing pandemic has forced many organisations to reconsider the way they ask their workforce to engage with each other and with customers.

As we transition into a more flexible working pattern of mixed home and office working, your continued success will depend on your ability to support your people in adjusting to their ‘new normal’.

**We can help your organisation keep on top of this rapidly changing landscape and adjust to the Future of Work.**

Our **Future of Work library** will provide organisations with the right tools to help everyone adopt more flexible working practices, allowing you to build and maintain high performing teams and deliver success in this new way of working.

This all-new library will provide even more support to help build and maintain high performing teams and deliver success in the new way of working.

Containing a blend of Adapt courses, as well as resources, tips and tricks, and videos, our library will provide you and your teams with the right tools to become proficient and effective in the new ways of working, while also preparing you for a transition back to your place of work.

We will support employees coming back into the workplace with training on COVID-secure practices and those still working from home with longer-term strategies for managing their time, resources and health whilst working in an isolated manner.

Content will be kept up-to-date as the world evolves over the next 12 months and we will keep ahead of the legislation, advice and new best practices as they emerge.

**KEY FEATURES**

- Partnered with tough cookie for Mental Resilience
- Broad and highly relevant content
- Modules can be elegantly updated without the need for expensive third party involvement
- New modules added and maintained as part of your subscription
- CPD accredited e-learning

To find out more visit [learningpool.com/future-of-work](http://learningpool.com/future-of-work) or contact us at [hello@learningpool.com](mailto:hello@learningpool.com)
Our fully CPD-accredited content delivers engaging and effective learning that is both memorable and transferable.

Our Future of Work content is:

**Rapid response**
We can deploy content quickly that fits in your LMS, LXP or website, that works perfectly on laptops, phones and tablets.

**Engaging**
We know that high learner engagement is essential in turning content into behavioural change and maximises the efficiency and effectiveness of each module.

**Shaped to fit**
We have developed 12 exclusive microlearning courses designed to address the challenges of right now and fit perfectly into every learner’s hectic schedule.

**Adaptable**
If you want content that looks and feels like it’s been handcrafted just for you, an editable version of the content is available via our authoring tool, Adapt.

**Focused**
Tailored for protecting wellbeing and delivering performance back into your organisation now and in the future.
