Intro to Effective Oral Communications
Dr. Kekeli Nuviadenu

Public Speaking: The Virtual Text

As a student using the Public Speaking: The Virtual Text, I am indebted to your company for giving me the opportunity to utilize your textbook. Your textbook has been an exceptional resource for me in my Oral Communications class at Bethune Cookman University and has helped me overcome my fear of public speaking. This textbook has been instrumental, insightful and gives the finest tips on how to be a better speaker. I also enjoyed learning about the history of public speaking as well.

The cost of the textbook is an economic blessing. As a single mother of two, money is always high commodity in my household. So, when my professor, Dr. Nuviadenu told our class that we were switching to Public Speaking: The Virtual Text, and the textbook was free, I was extremely overjoyed. The textbook has print resources, it is easy to access from the website and the cost is 100% effective.

I am eternally appreciative to Dr. Nuviadenu, Bethune Cookman University and the company for allowing our class to utilize Public Speaking: The Virtual Text.

Eternally blessed,
Erica Jackson
