Comments from Walden Students

I LOVEEEEEEE KAHOOT! It's a great way to get your audience to engage in an online interactive website!

“Racing against the time to answer a serious of questions to land the first spot at the end of the game makes the game more rewarding.”

“I love that after missing a few questions, I was allowed to regain those points in a second chance.”

“At the end of the game, I was able to see where I fell short of the quiz.

“I love that I was allowed to respond with the feedback of the overall program in a short survey in the form of different emoji’s.”

“This online interactive game is a great way to set the tone for any setting before, during, or after a lesson.”

“Great tool!”

“I just tested Kahoot! out and I enjoyed it! I would use this as a future study tool!”
