Grids

A Grid is your classroom or community of learners. Grids house your Topics.

Topics

Topics are your discussion starters or prompts. Students respond to Topics.

Responses

These are the students' videos they record or upload and add to the Topic. This is how they share their voice!

Replies

When activated, replies take the discussion one step further by allowing users to add a response or "reply" to a response that was added to the Topic.

Endless use cases!
