Olysha’s Vision Board

**ME**
I am interested in continuing to conduct research and teach online so I can share what I’ve learned over the years. I also see myself leading new faculty development initiatives across the institution.

**MY TEAM**
I see my team evolving into a unit that supports all areas of digital learning at our institution. We are growing and will continue to grow in a variety of ways.

**THE FIELD**
I see the ID/online learning field charting new territories - even beyond what we’ve imagined. We are change agents and will shape how this landscape (or spacescape) looks moving forward. I foresee all programs at all levels having flexible, online components. More blended learning and more flexibility in work/teaching methods.
