Improving the student learning experience-1

“The weekly folders were all very detailed and specific with introductions and expectations of what was to be completed each week. I especially appreciated the checklists in each module as I generally create weekly checklists in my planner.”

Improving the student learning experience-2

“All of the assignments that were due in the corresponding week were all available and identifiable in that week's folder.”

“Course content was laid out by week making it easy to see which assignments were due when.”

“Everything needed for each week in ONE folder”

Subsequent Improvements to the Design

- Course Home – improved visual design
 - Banner, Dept Logo, and Twitter feed
- Module level images
 - pexels.com, MSU photos, photo credits included
- Full-semester templates
- Modules 1-14, Special Topic, Finals Week
 - Spring 16 wks, Summer 14 wks, Fall 15 wks
- Course Wrap-Up
 - Closure activity, course evaluation links

Improved Instructor Support & Resources

- (Embedded) Instructor Help Module
 - Semester Start Checklist, How-to resources
- Semester versions with pre-populated dates
 - Module start dates, Discussion due dates
 - Varied visual design, seasonal MSU photos
- Additional version with sub-modules
 - Readings & Materials
 - Assignments
- Time-saving features
 - Bulk offset dates, no internal fixed dates

Faculty Responses

"The design is easy to understand and makes intuitive sense. It provides consistency and students have told me that they find it easy to follow."

"The process was collaborative, and I learned a great deal about D2L in general during the process. It helped me to think about the student's perspective when it came to online teaching."

"I can't think of any real challenges in the process. I feel very positive about it."

Hello! My name is Tina Blaschke-Thompson and I am your instructor for this course, SW 822, Policy Advocacy. I have been working for the School of Social Work at MSU since 2006. I started out as a student doing marketing and recruitment for the Statewide Blended Program, one of the programs I currently coordinate (along with the Weekend Program).

Before coming to MSU, I worked for the Student Counseling Center at SVSU, where I was in charge of a social norms campaign targeting high-risk drinking behaviors among students. While in the MSW program, I worked for the Ingham County Health Department as an Adolescent Health Education (AKA sex ed teacher), where I would go into middle schools and high schools in the Lansing area to talk about abstinence and safe sex practices (among many other topics) – we will discuss this more in a few weeks when we discuss the state of sex education in the U.S. (which is abysmal IMO...)

Hi Tina! I am currently doing placement at the SVSU center! I also have a lot of experience with infant mental health. I loved doing the home visits.

Grand Rapids. I have two amazing boys, 10 and 4, and it's never a dull moment with those two. My hobbies include chasing my kids around, reading, drawing Mandalas, being outside, walking through the woods, meditating. Something unique; I enjoy collecting crystals and gemstones.

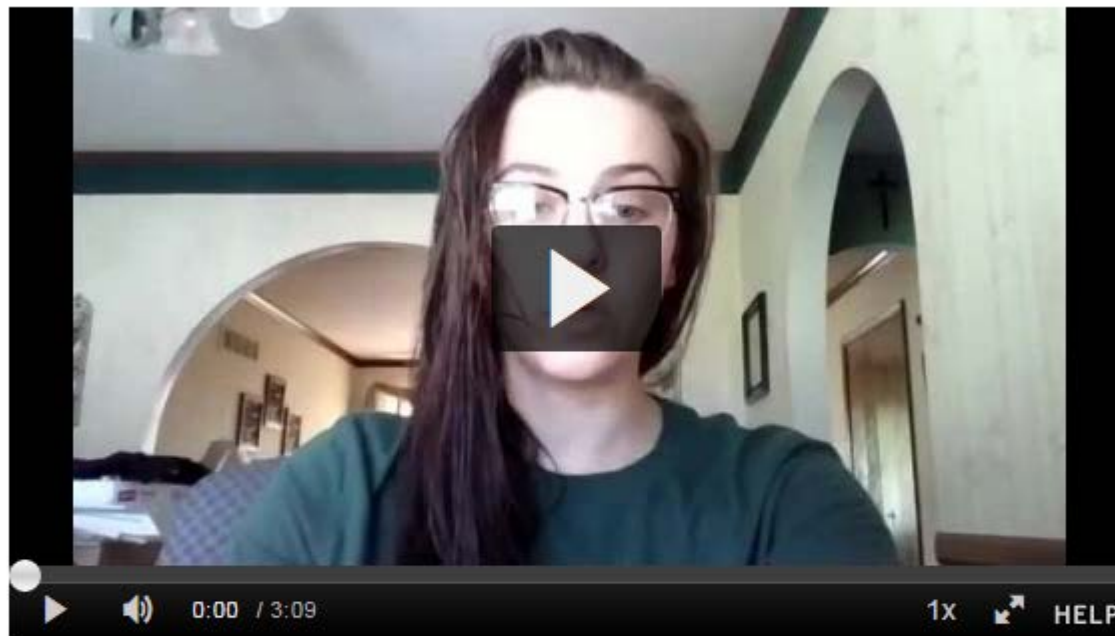

Hey all! My name is Amanda! I grew up in an Air Force family, so you could say I am a military brat. I was born in Virginia, but I like to say I am from small town Mascoutah, IL because I lived in that area for 13 years. I am in the Clinical Advanced Standing Program at MSU. My favorite television show of all time is Supernatural... (I am a Sam girl). My hobbies include watching Supernatural continuously, baking/cooking, and adult coloring when I have the time.

Retaining Instructor Innovations

Advantages

- Personalization
- Student engagement
- Variety and interest
- Comfort level with learned tools
- Use of existing content, less time-consuming than changing formats

Disadvantages

- Lack of consistency across courses
- One more thing for students to learn
- Accessibility issues
- Helpdesk support may be lacking for third-party technology tools

Current Challenges

- Accessibility
- Maintaining Master Courses
- Updating previously redesigned courses that are copied from semester to semester
- Faculty using Weeks vs Modules
- Rearranging Modules - Title and filename edits
- Re-use of other instructor's videos when copying a semester course
