Assignment

1. In-person students work in pairs with square, triangular, and oblong numbers.
2. Online students work in the same pairs with pentagonal and hexagonal numbers.

Tools for Communication and Engagement

Zoom

- Sharing screen and whiteboard
- Annotating simultaneously
- Recording and sharing

Vialogues

- Analyzing and annotating video
- Providing feedback to students
- Continuing the conversation with students
Findings

- Established Protocol
- Recording the Process
- Non-Interrupting Instructor Guidance
- Explicit Questioning and Modeling Pedagogy
- Complete Instructor Access to the Learning
- Instructor Access to Side Chat
What problems of practice are present in your online pedagogy?
