Drawing
Videos

1. Go to Clips
2. Tap and hold down the 'pink bar'
3. Record your session
What would you do if you won $1 Million?

*Condition: You must spend it within 18 hours with no credit at the end of the day*
In the slide navigator, tap to select the slide you want to add a Magic Move transition to, tap the slide again, then tap Transition.

Tap Add Transition, tap Magic Move, then tap Done.

Tap Duplicate to duplicate the slide, or tap Cancel if you already duplicated it.

Change the position or appearance of the objects on one or both slides; you can drag objects to new locations, rotate or resize objects, add or delete objects on either slide, and more.
The Magic Move transition is most effective when both slides include at least one common object whose position or appearance has been altered.

To preview the transition, tap the first of the two slides in the slide navigator, then tap ↵.

To customize the transition duration and timing, tap the first of the two slides in the slide navigator, tap Magic Move at the bottom of the screen, then do any of the following:
Thank you!
